- Ensuring the cleanliness and sterility of food to be given to participants

Social Project - President UniversityJul 2024

Public Relation & Event Organizer

This project aims to prevent mosquito transmission and the spread of dengue fever by planting lavender and conducting outreach activities on Tidung Island, Thousand Islands, Jakarta.

- Designed event flow, technical rundown, and coordinated timeline execution for a health and environmental awareness project held in Tidung Island.
- Ensured timely execution of each event segment, including lavender planting and dengue prevention outreach, directly engaging the Tidung Island community.
- Maintained long-term relationships with external stakeholders, including local authorities and health workers in Tidung Island, to ensure sustainable impact.
- Collaborated with local residents in Tidung Island to promote awareness of mosquito-borne diseases and environmentally friendly practices.

Bootcamp - President UniversityMar 2025 - May 2025

Member

At the end of the bootcamp, there was a final project in collaboration with the Ministry of Defense (Kemhan) to profile five threat actors and create social engineering.

- Conducted in-depth research on five types of threat actors: nation-states, hacktivists, cybercriminals, insider threats, and terrorist-affiliated groups.
- Utilized OSINT and threat intelligence frameworks for data gathering and analysis.

- Developed comprehensive profiles covering each actor's motivation, capabilities, preferred targets, and TTPs
